Drawings

New corrected drawings are required in this application because the drawings are failing to comply with 37 CFR 1.84(i) & 37 CFR 1.84(p) because lines, numbers & letters are not uniformly thick and well defined, clean, durable, and black (poor line quality). Applicant is advised to employ the services of a competent patent draftsman outside the Office, as the U.S. Patent and Trademark Office no longer prepares new drawings. The corrected drawings are required in reply to the Office action to avoid abandonment of the application. The requirement for corrected drawings will not be held in abeyance.

Reasons for Allowance

Claims 22-33 are allowable over the prior art of record.

The following is an examiner's statement of reasons for allowance: the best prior art of record, Douglas, III, taken alone or in combination of other references, does not teach or fairly suggest an electronic system comprising, among other things, a die having a pMOSFET comprising a source at the first core voltage and a drain connected to the transmission line having a quiescent voltage at ground voltage, as set forth in the claims.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
